★★★★★ a week ago

“Ken is the best, great to work with him. We just went through a kitchen remodel and Ken was here for the whole process, and everything turned out great. I liked his work so much I had him install a whole house water filter system which has improved the taste of our water. I would recommend Ken for any of your plumbing issues.” - John Elliot

★★★★★ 5 months ago

“We had a stellar experience with PipeWrench Plumbing. We needed our house repiped and Ken was both professional, and knowledgeable about all that would entail. He worked around our schedule, and was very easy to work with. His prices are affordable, and his service was top notch. He even checked in with us several times afterward to make sure everything was going smoothly. Highly recommend, you won't be disappointed.” - Toni McCoy
